

Weekly update

Up to and including
SATURDAY 16TH JANUARY 2016

Welcome to the latest update of Fantasy Non-League 2015/16. Today's update covers the period Sunday 10th January 2016 through to Saturday 16th January 2016. I am pleased to announce that all your changes have been implicated. You can tell that your changes have been made because you will have [S] after your team name. If you don't have this after your team name and you have sent them in, please get in contact with the FNL Helpdesk.

I thought this week we would take a mid-season look at how the FNL table is shaping up. Leading the way is Pargyle who has so far accumulated 13,993pts. Last week it was very close between first and second but now a small gap has opened up and our leader is 87pts ahead of second placed Spyway Hill. The other interesting thing about our leader is that he hasn't made any substitutions. In third place is Meat Fan City 2 who is 98pts behind our leader. The top ten is covered by only 192pts.

So what about the lower reaches of the table where of course there is also cash up for grabs if you finish rock bottom. Bottom team at the moment is Just Ros who has so far only gained 5,169pts. They are only 37pts adrift of their nearest rival who is M W Flops. The bottom ten is covered by 292pts.

At the end of this month, I will be running my first substitution comparison article. This is where you can see how you would have been doing if you hadn't made those changes. Already we are seeing some of the teams you have all removed starting to score points and turn things around. So did you make the right choices? Should I have left in that one and withdrew this one? Well if you would like to find out how your changes have effected your team please get in touch with the FNL Helpdesk.

Top 3 teams leading the January 2016 Manager of the Month.
