

Weekly update

Up to and including
Saturday 28th September 2013

Today's update covers the period between Sunday 22nd September 2013 through to Saturday 28th September 2013.

With just two more days to go for our first Manager of the Month of the FNL 2013/14 Season we have a new leader for the August/September month with Fishermans Walk taking a 37pt lead into the final two day run in. Second and third place are only separated by 4pts and as always it is clear that the league leader monthly bonuses will play a major part in deciding who will pick up the first cash prizes of our new season. Of course this season we have an extra monthly bonus with each bottom club picking up -25pts and at this early stage of the season some of those bottom teams are not the ones you would expect to be in that spot.

In the Skrill South your most popular club was Chelmsford City with 870 of you taking a chance on the Essex side. Second most popular was Sutton Utd with 741 of you choosing the Surrey team. Next and third most popular is Eastleigh with a total of 717 of you choosing the Hampshire team. Finally at the bottom of the pile in the Skrill South is Farnborough with only 77 of you taking a risk on the troubled side.

In the Evo-Stik Premier FC United of Manchester took top spot with 984 of you picking them. In second came newly promoted King's Lynn Town with 696 of you taking them on and finally third was AFC Fylde with 573 of you picking them. The most unpopular team in the Northern Premier with only 34 of you risking them was Ashton Utd.

Finally another reminder for those of you without internet access, this season I am offering a fortnightly text option so you can be kept up to date on your team, to take advantage of this please text your mobile number to the number below.
