

Weekly update

Up to and including
Saturday 25th January 2014

As you are reading this update we have finished yet another Manager of the Month as the month of January 2014 slips by. As you can see below the top two in the January 2014 Manager of the Month table have only 8pts between them and that will mean that it will again come down to who has the most league leaders in their set up. The third placed team is 25pts of top spot and the top ten in January is covered by 85pts.

Yet again the month of January 2014 has seen a lot of postponements during its 31 days because of the weather; these games of course do get played at a later date but most of them won't be played in the original month they were scheduled and that does of course greatly alter the outcome of the Manager of the Month. If these games had been played on their correct dates the winner of the Manager of the Month would definitely be different.

Finally in two weeks' time I will be running my first substitute comparison report, as it stands at the moment I have only had six requests to feature in this. So if you want to see how you would have been doing if you hadn't made those changes please let me know by either e-mailing or phoning the FNL Helpdesk.

The Top 3 teams currently leading the January 2014 Manager of the Month.

- | | | |
|-----------------------|----------|--------|
| 1. Athletico BB | 1,514pts | (92nd) |
